### TRADE QUALIFICATION NOTES

- Trade accounts are intended for established businesses and professionals who specify, purchase, resell, install, or source tile, stone, mosaics, or related materials for client projects.
- An EIN number or resale certificate alone may not be sufficient. BelTile must be able to verify that the business is connected to an eligible trade category.
- Trade accounts must be able to receive freight deliveries at a commercial location without liftgate service. Residential, liftgate, limited-access, inside delivery, or other special handling may result in additional freight charges.
